SLOVENIA - MARIBOR

- PETER HECL s.p. www.domacijogurti.si

The company is oriented towards milk production. The location on the Slovenian dairy market led them to the decision to process some of the milk produced into domestic yogurt; ordinary one and also with different fruit flavors. They have control over all the production process. None of their products contain food colouring or genetically modified organisms (GMOs). They have small retail shop with home made products.

- PANORGANIC www.panorganic.si

Panorganic is a fruit and vegetable farm company. The biggest Slovenian bean and garlic producer builds on a cutting-edge environment friendly production method.

Apart from the two flagship products, Panorganic also grows blue huckleberries, strawberries, goji berries and lettuce.

- PTUJSKA KLET D.O.O www.pullus.si

The Ptuj Wine Cellar is one of the largest and most important wine producers in Slovenia.

Its vineyards spread through the wine-growing slopes of Haloze and Slovenska gorice. This land is one of the most favourable lands in Slovenia for producing quality wine and for these reasons, the Ptuj Wine Cellar is one of the most reputable wineries in Slovenia.

Responsibilities of the students: collecting grapes, preparation of grapes for further processing, conducting oenological procedures, laboratory analysis of the samples

- MOGA www.moga.eu

It is a private, family company that was established in 1992. It consists of garden centre and plant nursery, offering landscape and gardening services. The company has exemplary designed and arranged garden centre where is possible to find the greatest collection of outdoor ornamental plants in the Republic of Slovenia.

- KALIA www.kalia.si

Kalia is chain of garden centers. They offer everything for the garden. They are selling wide range of products: gardenings tools, flower seeds, plants and threes's seedling, different kind of flowerpots and pet food and toys. Their shops are located in all parts of Slovenia, so they are visible on the local gardening market.

- FACULTY OF AGRICULTURE AND LIFE SCIENCES WITH BOTANICAL GARDEN

www.botanicnivrt.um.si/index.php/en .

The University of Maribor Botanical Garden spreads over an area of about 8 hectares and it is a part of a larger agricultural estate maintained by the Faculty of Agriculture and Life Sciences. Authentic and foreign flora are presented here, especially some floristic rarities of the Pohorje Mountain range and other parts of North Eastern Slovenia. It also holds many horticultural collections, provides places for meetings, relaxation, learning and playing. The garden is a scientific and research institution, open to the public.

- HAPPY FARM www.happyfarm.si

It is a society for activities and therapy with horses located on the farm of 30 hectares land in Pesnica, village outside Maribor. They offer riding school and accommodation for horses which owners cannot have their animals at home. But their main specialty are therapies with horses, opportunity for comprehensive treatment of patients with special needs - children and adults.

- PERMAKULTURNI INŠTITUT MARIBOR

www.translate.google.it/translate?hl=it&sl=sl&u=http://permakulturni-institut.si/&prev=search

The principal purpose of Permultural institute Maribor is public awareness of sustainable systems, their planning and economic eligibility, overall about their appropriate adaptation. Its initiative is based on the spread of awareness about the importance of sustainable systems, so the key part of the PIM is the recruitment of equal-minded people who also want certain changes in the quality of life. With completed education, desire for work and other ways of spreading awareness, everyone can become part of our team and thus add to our common goal. Whether it is volunteering, help in the form of external collaborators, employment in PIM or the establishment of a partner company, material or financial sponsorship, donations, new ideas, promotions and more - all of these are more than welcome ways of assistance.
